Hello VISITORS

VISITOR MANAGEMENT

THE ALL-IN-ONE SOLUTION FOR VISITOR MANAGEMENT

The visitor badge is the very first impression visitors get of your company upon arrival. Thanks to this badge, your staff are able to identify visitors instantly.

The Hello Visitors solution allows you to provide each visitor with a professional badge, which enhances your company image. Thanks to the software package provided with the solution, you can keep track of your visitors (arrivals and departures): you know who is on your premises at all times.

REGISTER EACH VISITOR, EACH VISIT

Add new visitors or look up those who have already visited previously in just a few seconds. Each visit is attributed to the visited employee, and the place and the purpose of the visit are also mentioned.

SUPERVISE THE FLOW OF VISITORS

The intuitive dashboard shows you who is on the premises at all times. You keep a record of all visits, including arrival and departure times. In case of emergency, an evacuation report can be printed.

PRINT PERSONALIZED VISITOR BADGES

Give your visitors professional quality badges on plastic cards.
Thanks to our template publisher, you can personalize badges using your own design/logo.

TRACK MESSAGES AND PARCELS

The parcel tracking facility allows reception staff to receive parcels addressed to employees by recording their tracking numbers.

REWRITABLE BADGES: MAKE SAVINGS!

Thanks to the Tattoo RW card printer included in Hello Visitors, erase and print your visitor badges on rewritable plastic cards in just a few seconds. The rewritable technology requires neither ribbon nor cartridge, which generates substantial savings while limiting the impact on the environment. Stop throwing away the cards after use: simply erase and print the updated data!
